

Adopt a Retiree Piarist Fathers – U.S.A. Province

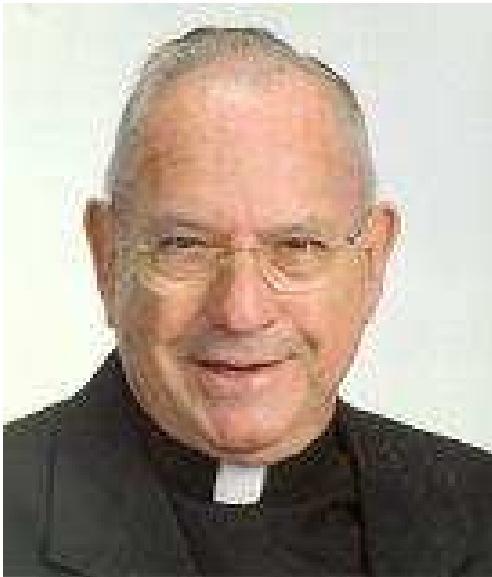

Members of the Piarist Fathers do not retire from the priesthood or from the religious life once they stop working in a school or other ministry. They live in a Piarist community, where they contribute as much as their health permits. Currently the Piarists' USA Province has six retired priests. The cost of care for a retiree per year is approximately \$22,000. On the average, they receive \$10,000 per year from social security and pensions. With your generous contribution, you can become partners with the Piarist Fathers in helping to cover the living expenses for the retired priests.
